

SOLSOURCE SPORT™

New Product Launch - Fuel Free Camp Cooking!

Every year, over 100,000 wildfires occur in the US alone. In 2013, our SolSource Solar Grills revolutionized grilling by enabling customers to grill with solar energy for the first time. Now, we're launching a new product, SolSource Sport, which could eradicate ecological damage from campfires. SolSource Sport delivers high-tech solar cooking to campers, beach-goers, and other outdoor enthusiasts in one light-weight, compact design.

Key features

- SolSource Sport™, at approx. 10Lb, is 75% lighter than our original SolSource™
- The sleek design packs into a medium size 24" duffle bag or back pack for ultimate portability
- It takes less than 3 minutes to assemble and it is super easy to use
- High-tech patented self-healing reflector that delivers 92% efficiency
- Provides approx 600W of cooking power, boiling 1 litre / 1 quart of water in 15 minutes
- MSRP \$249, with up to 60% discount available on Kickstarter on May 16, 2017.
- General availability in US, EU and select countries from July 2017.
